Your Industry Guide

We live in a world in which information is available nearly everywhere we go. This is why it is helpful to have a one-stop industry resource, such as the *Water Quality Products* annual Buyer's Guide, when you need information fast.

Within the pages of the 2009-2010 Buyer's Guide is a comprehensive listing of the industry's best product and service suppliers and new product information. And for those of you who like to refer to the Internet for directories, an electronic version of this guide is available on our website, www.wqpmag.com.

Let the *WQP* Buyer's Guide be your guide to the water quality industry.
