

Stand-Out Resource

It is easy to be overwhelmed by the constant barrage of information coming at us from various types of media. This is why it is helpful to have one helpful resource you know will be valuable year-round, such as the *Water Quality Products* annual Buyer's Guide.

The 2010-2011 Buyer's Guide contains a comprehensive listing of the industry's best product and service suppliers and new product information. A searchable electronic version of this guide is continually being updated and is available year-round on www.wqpmag.com. If you aren't listed, visit the online buyer's guide and submit a free listing, and we will make sure you are included in next year's print edition.
